VDL-5 Technologies is a wholly-owned subsidiary of Trident Development Corporation, a Service Disabled, Veteran Owned Small Business (SDVOSB). VDL-5 Technologies is an established company with many years of experience creating documentation and training for complex equipment, systems, and processes. Our writing, engineering, and software team is focused on the development of military standard technical manuals, Interactive Electronic Technical Manuals (IETM), and training materials. Services include:

Technical Manual (TM) Development and Administration

- Develop and maintain content for Electronic Technical Manuals (ETMs) and Interactive Electronic Technical Manuals (IETMs)
- Research, analysis, and conversion of commercial content into military spec compliant technical manuals
- Arbortext stylesheet development and customization
- Create technical content per standards such as MIL-STD-40051, MIL-STD-38784, MIL-DTL-38769, MIL-DTL-38807, MIL-DTL-5096 and MIL-DTL-87929
- Experience with IETM software for MIL-STD-40051 and S1000D content
- Resolve problems and provide recommendations for XML/SGML authoring environments

Data Conversion (SGML/XML Data Tagging)

- Conversion of legacy print or PDF documents into tagged SGML/XML content
- Conversion of existing illustrations into format and resolution required for PDF and print
- Quality check of converted data
